GP Advice Line

The HSF health plan GP Telephone Consultation Service is available 24 hours a day, every single day of the year

Contacting your GP for medical advice, reassurance or guidance, especially outside surgery hours or during the working day, can often prove inconvenient.

Now you can speak with a GP at a time that suits you. HSF health plan provides a private GP Telephone Consultation Service to enable you to talk in confidence, to a qualified practising GP without the worry and inconvenience of time constraints. There's no charge for the advice and every call remains confidential. No personal details or any advice given will be passed on to any organisation or individual without your prior consent.

Why a GP Advice Line?

If you are working or leading a busy lifestyle, you may have difficulty getting to the surgery during opening hours.

You know that in an emergency you should call your own doctor or the emergency services, but it is sometimes difficult to decide if a medical problem is important enough to see your GP.

Or perhaps you want to discuss a sensitive or confidential medical matter and would prefer to talk to a GP over the telephone at a time to suit you. Maybe you want more time to discuss your concerns or a second opinion.

Who answers the telephone?

Your call will be answered by a specially trained operator. The operator will take some details from you and arrange for a GP to call you back at a convenient time.

Should our doctor think it advisable, and subject to your agreement, we will send a record of your consultation to your own GP in order to keep him/her informed.

What sort of things can I ask about?

An ache or a pain that won't go away – we can provide clinical advice on your symptoms and discuss possible treatments

- Sensitive or confidential concerns
- Explanations of diagnosis or treatment you may have been prescribed
- Possible after-effects of surgery
- Side-effects of any medication you're taking
- Vaccinations you may need when you're travelling abroad and other health precautions relevant to your own personal medical history
- Any healthcare issue that you feel requires the expertise of a doctor

Will I still need to see a GP?

Maybe. Many of our callers receive the advice, reassurance and, where appropriate, diagnosis they need from our doctors. The GP Advice Line provides an invaluable information and advice service which might prevent an unnecessary trip to a GP. We can help with most questions you may want to ask a GP, but if you have symptoms which require a physical examination, or you need a prescription, you may have to see a GP.

How often can I call?

There is no limit to the number of times you can use the GP Advice Line. You can call as often as you need, secure in the knowledge that all advice will be given by practising GPs who are in touch with latest advances in medical care.

To use the GP Advice Line, all you need to do is call the dedicated number and quote your registration number. Please note all calls are recorded.

Virtual Dr.

The next generation in GP Services - Your Virtual Doctor

This new service enables you to have a virtual face to face consultation with a practising qualified GP in the comfort of your own home or at work at a convenient time to suit you between 8.30am and 6.30pm Monday to Friday.

The service is designed to be secure, confidential and easy to use; you just need an email address, a broadband internet connection and a computer with a webcam located by your telephone/mobile phone. The service is an enhancement to the current 24/7 GP Telephone Consultation Service and enables you and the doctor to see each other via webcam on your computer or laptop making for an enhanced communication between doctor and patient.

For example you may have pain in your shoulder and difficulty moving your arm properly. This service will help the doctor to see exactly where the pain is and how it restricts your movements. Or you may have abdominal pain – again, you can point to exactly where the pain is helping the doctor in diagnosing your problem and advising you accordingly.

Now you don't need to leave home or work to see a qualified GP. With HSF Virtual Doctor, the UK's first online webcam GP consultation service, you can arrange a virtual face to face consultation at a time that fits with your busy life between Monday to Friday 8.30am to 6.30pm (telephone consultations are available 24/7).

- At home – you don't need to wait days for an appointment and travel to a busy surgery and wait for your appointment.
- At work, imagine your own company doctor service without having to leave the office. The Virtual Doctor Service is further enhanced using state of the art 3D medical images and health information enabling you, the patient, to have a more complete understanding of your condition.
- You will then see the Welcome screen with the Doctor showing in the top left hand corner.
- Please note both the telephone conversation and the video images are recorded for customer service and monitoring purposes.

- The image of the doctor can be enlarged by clicking and dragging from the bottom right hand corner.
- To assist in the diagnosis or explanation, the Doctor may wish to refer to 3D medical images of the body. This will appear in the central section of the screen.
- Once your consultation is complete, the doctor will end your online meeting. You can now close your browser window.
- The doctor will end the telephone conversation, after ensuring you have a clear course of action.

We hope you find the service helpful.
You can use it as often as you wish.
